## DESIGN AND MAIN USAGE EXAMPLES

Logo will be in a vector format

## TOP NAVIGATION

Primarily used on the top navigation bar on top left centred  
It needs to be in one of the primary colours of the brand

## CONSIDERATIONS

- both words on logo need to be in same colour
- wherever logo is to be used, make sure its visible
- the contrast between the background and logo need to be strong enough to stand out especially considering accessibility for everyone.

## MAIN BRAND COLOURS

#17C4BD

Aqua Green

Used Primarily on the top bar logo and bottom highlighted page alongside for highlighting UI elements like progress bars

#FFFFFF

White

Main background colour and inactive buttons for choosing

#242F2F

Dark Grey

Main text colour used for most primary text and also on top bar navigation

## EXAMPLE

Progress bar with Aqua Green with inactive areas in medium grey

Add Details

Text Dark Grey

Background white

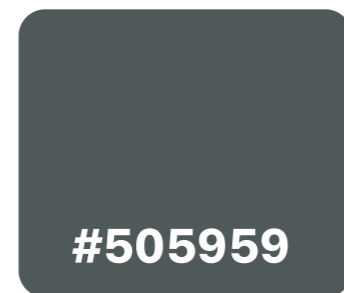

CANCEL

Bottom Bar Navigation highlighted icon

## SECONDARY COLOURS

#505959

Neutral Grey

Used on overlays on screens alongside form fields

#929797

Medium Grey

Used for icons primarily and for disabled states like the tab bar.

#F4F4F4

Light Grey

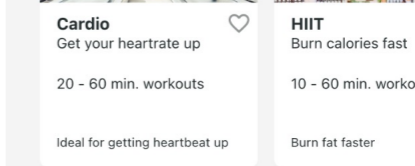

Used as expert background colour to highlight the cards more.

Tab bar disabled state uses medium grey

Browse by Expertise

Experts and Workout pages use a light grey background colour

## HEADERS

Should never be smaller than 16 pt.  
Only top headings should be header 1 or 2 rest always header 2 or 3

**Header 1** SF Pro Bold 40pt

---

**Header 2** SF Pro Bold 30 pt

---

**Header 3** SF Pro Bold 20pt

---

**Header 4** SF Pro Semi-Bold 17pt

---

**Header 5** SF Pro Medium 16pt

---

## BODY

Mostly body should be 16pt only expert cards can be 14pt.  
Due to accessibility considerations 14pt is the smallest text size to be used

Body 1 SF Pro Regular 16pt

---

Body 2 SF Pro Regular 14pt

---

## BUTTONS

All buttons have to be 20 pt and make sure to keep some distance between the letters as well.

**BUTTONS 1** SF Pro Text Bold 20pt

---

## NAVIGATION

**TOP BAR** 414 X 64 pixels

**BOTTOM BAR** 414 X 64 pixels

## CONSIDERATIONS

- top bar needs to always include the logo
- bottom navigation needs to be evenly spread out and icon that page is open needs to be highlighted with a strong contrast.

## FORM FIELDS

356 X 66 pixels each form

Name

Email

Distance:  
30 px

Password

## CONSIDERATIONS

- needs to have the icon and text example in the form field
- label for each form field has to be above the form field in a medium grey

## Expert Card Profiles

210 X 279 pixels

Image: 210 X 120 pixels  
Top corners 8px rounded

**Low Carb** 

Loose weight fast

1-6 month plans

Ideal for rapid weight loss

Card: 210 X 159 pixels  
Bottom corners 8px rounded

356 X 194 pixels

Image:  
356 X 103 pixels  
Top corners 8px rounded

**Juli Blaw** 

Yoga and HIIT 25 Euros / Per hour

Box:  
356 X 91 pixels  
Bottom corners 8px rounded

380 X 129 pixels

**1. High Knees**

3x 15 repetitions  
90 seconds break inbetween

3 Varieties shown

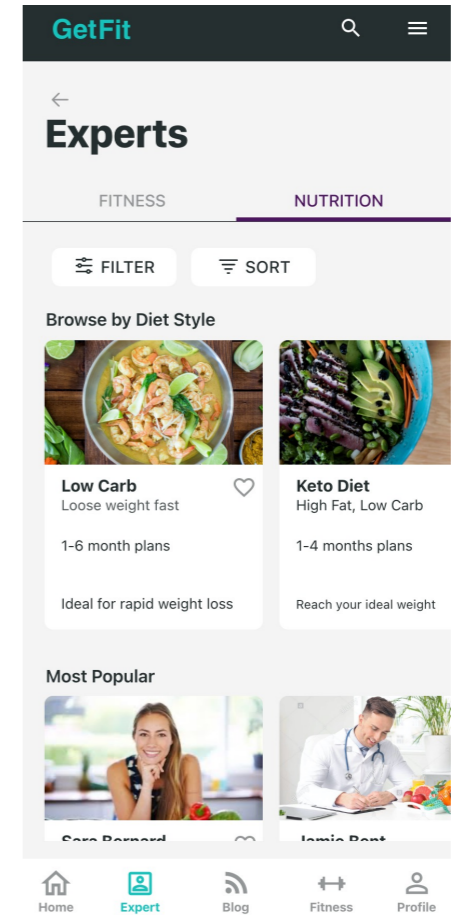

Image:  
262 X 129 px  
Right corners 8px rounded

Image: 118 X 129 pixels  
Left corners 8px rounded

## CONSIDERATIONS

- should always be on a light grey background
- card text colour should all be the darkest grey
- take care of the specifications of rounding and images

## Expert Images

Expert photos need to be clear and demonstrate their expertise preferably in a way that their face is seen along with the role their work is based on. Photos need to be colourful and engaging and showing the person in a lively manner or in their work so that users feel welcomed and interested to interact with them.

## LifeStyle Images

Lifestyle images used for nutrition cards and also showing expertises. Need to clearly demonstrate what they are showing and need to focus on specific elements. Photos need to be clean and clear with not too much happening around.

## Expertise Images

Images of the expertise in fitness need to be shown clear and demonstrate the sport being performed. Can be shown as a single person or a group but need to be full body if possible, clearly engaging user with the sports.

**Tone of Voice**

Accessibility

Design Resources

The overall tone of voice is very straight, simple and to the point. It needs to be encouraging and engaging in order to motivate the user to keep up with his or her goals and reach their daily set target with the experts.

Expert descriptions need to be formal but simple explaining to the user in short paragraphs what the person has achieved.

Workout videos need to be very simple and self explanatory and the overview should have as less text as possible as no one has the time to read while working out.

The CTA needs to be short, clear and easy to follow and understand.

### SIZE

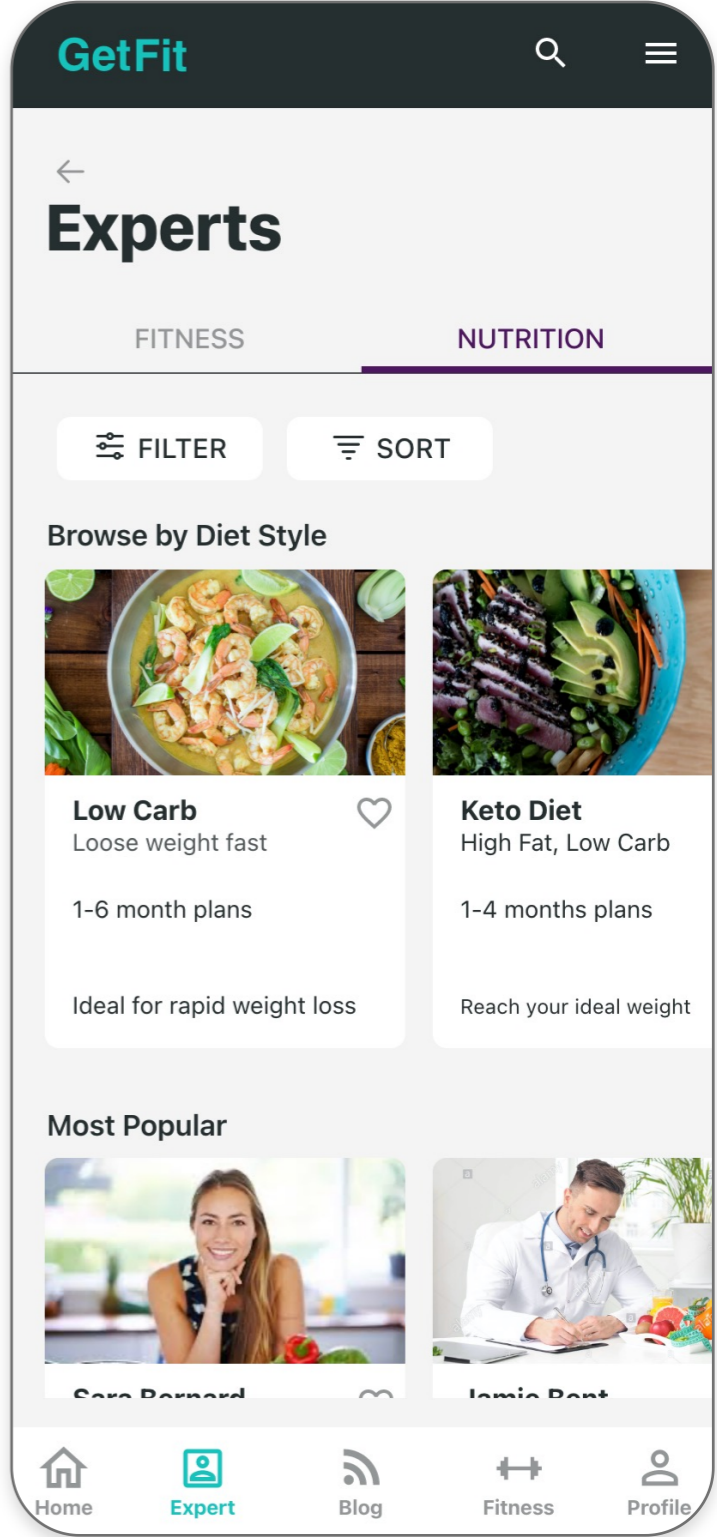

Bodycopy text should not be smaller than 12 pt and button text not smaller than 14 pt

### CONTRAST

- over a light background, text needs to be dark enough for easy read
- on dark background text should always be white or light grey

### ICONS

- should never be smaller than 20 px X 20px
- should never be white or too thin

## Other Do's and Don'ts

### DO's

- use High Quality images as a standard and use overlays of grey and purple wherever necessary to highlight text

- Keep content to a high standard

- be kind to the community but be mindful of the different time zones of users and experts

### DON'TS

- don't overload user with too much information or notifications

- avoid regressive third party promotion

- don't use aggressive or abusive images that could hurt anyones sentiments, religion or thoughts.

- Keep typography and colour standards same at all times

## Design Resources

All design UI elements and resources can be downloaded for both Adobe XD and Sketch
